All you need is an iPhone.

Once your employee badge has been added to the Apple Wallet, you can unlock your door by holding your iPhone or Apple Watch near the reader. You don't even need to wake or unlock your device. It's that simple.

- » Your employee badge. Now with the security of iPhone and Apple Watch
- » Deploying employee badges on iPhone and Apple Watch has never been simpler

Keys & badges Always on hand or wrist

The key to their spaces. Now on iPhone.

With employee badge in Apple Wallet, [audience] can easily access [space] with just their iPhone or Apple Watch—from [detailed spaces audience can access]. All [audience] need to do is hold their iPhone or Apple Watch near the reader to unlock. No need to authenticate with Face ID or open any apps.

Your employee badge Now with the security of iPhone.

When your employee badge is in Apple Wallet on your iPhone or Apple Watch, it's stored on your device, which means Apple doesn't see the doors or spaces you unlock. This helps keep your data private and secure.

Get in, even when your
iPhone needs a charge

If your iPhone needs a charge, your employee badge in Apple Wallet will still work. Power Reserve provides up to five hours of access, so you can still get inside.

Maximize the return on your technology investments

CloudGate effortlessly harmonizes with your workplace hardware, delivering a hassle-free, fully customizable experience.
