Entrust Genuine Ribbons, Printheads, and Cleaning Supplies

HIGHLIGHTS

Only genuine Entrust supplies will ensure you get the most out of your Entrust Sigma DS1 and DS2 card printers. Robust performance standards ensure the quality and consistency of Entrust supplies, guaranteed. Twelve monochrome ribbons are available with Sigma, giving you the choice and flexibility to pick a color that works for you. Entrust high-quality topcoats protect images, prevent fading, and defend against abrasion, moisture, and chemical attack.

KEY FEATURES & BENEFITS

Superior quality, proven performance

- Card print quality emulates your on-screen colors for vibrant color and sharpness

- Print resolution of up to 300 x 1200 dpi allows you to print fine details of small text, detailed designs, and quality bar codes

- Printer driver automatically adjusts settings to match ribbon type for maximum image quality

- Innovative ribbon conservation and consumption tracking with notifications when supply is low for upcoming ribbon replacement

Convenient, cost-effective operation

- Built-in technology conserves ribbon usage, reducing waste and saving you money:

    - Panel ribbons save one complete panel set during each initialization

    - Monochrome ribbons use only material length needed for the specific card design, for significant yield savings

- Convenient ribbon types for use in simplex or duplex applications

- Automatically notifies you when supply is low and it's time for ribbon replacement

- Print ribbon kits include a ribbon, isopropanol cleaning card, and an adhesive cleaning roller for easy loading onto the provided ribbon cartridge

- Ribbon rolls or optional pre-loaded ribbon cassettes give you choice on switching ribbons

Unmatched security

- Entrust supplies utilize state-of-the-art RFID encryption technology, ensuring printer-to-supply communication, and authentication for assured uninterrupted supply use. This enables innovative features for customer ease-of-use and high print quality optimization

- Specialty ribbons let you add UV fluorescence or luster color to cards as low-level security elements or decorative embellishments

Eco-friendly

In support of fostering a sustainable future, Entrust maintains compliance with global environmental regulations while striving to reduce our impact on the environment.

- Ribbon cores are made with a biodegradable material

- Packaging is biodegradable, made from 100% recycled material, and printed with soy inks

- Entrust is an ISO 14001 Certified company

Panel color reference:
Y = Yellow   M = Magenta   C = Cyan   K = Black   T = Topcoat   F = UV fluorescent   L = Luster   S = Silver   G = Gold

Each print kit includes one ribbon, one isopropanol cleaning card, and one adhesive cleaning roller. Additional cleaning cards and cleaning rollers available separately.

* Channel specific supplies suffix may be applicable
** Ribbon yields: Actual monochrome ribbon yields may be up to three times greater due to Entrust ribbon saver features. Panel ribbon yields stated are typically the maximum number of panel sets per roll.

Rely only on genuine Entrust supplies
Sigma DS series printers require the exclusive use of Entrust genuine print ribbons. Protect your investment in Entrust solutions by choosing only genuine Entrust supplies available through certified global resellers. Only Entrust can provide global availability, service, and support you need – when and where you need it.

ABOUT ENTRUST CORPORATION

Entrust keeps the world moving safely by enabling trusted identities, payments, and data protection. Today more than ever, people demand seamless, secure experiences, whether they're crossing borders, making a purchase, accessing e-government services, or logging into corporate networks. Entrust offers an unmatched breadth of digital security and credential issuance solutions at the very heart of all these interactions. With more than 2,500 colleagues, a network of global partners, and customers in over 150 countries, it's no wonder the world's most entrusted organizations trust us.
